- <u>January 6th News Coverage</u>: Collected, analyzed, and visualized news related to January 6th
- Public Perceptions of the ObamaCare Program: Developed sentiment analysis ML models

WORK EXPERIENCE

The University of Chicago

Chicago, IL

Graduate Teaching Assistant for Survey Research Methodology

January 2024 - March 2024

Graduate Teaching Assistant for Modern Survey Research Methods & Techniques March 2024 - Present

- Responsible for supporting 20 students with academic guidance and constructive feedback
- Host weekly office hours and online discussion boards during which additional support is offered to foster a collaborative learning environment

Global Strategy Group

New York, NY

Survey Research Intern

June 2023 - August 2023

- Conducted survey research by building questionnaires, sampling research, and data visualizations using R. The most prominent project was <u>Navigator Research</u>; a trusted polling newsletter amongst progressives that helps informs policy and messaging
- Led internal research on observed vs. latent variables and assessed various weighting schemas in R to account for conservative non-response bias

SBDigital

Washington, D.C.

Senior Digital Associate

April 2020 - June 2022

- Planned and managed impactful multi-million-dollar advertising campaigns across multiple digital platforms, supervised other associates' campaigns and led research efforts into privacy updates and digital analytics; resulted in coordination of hundreds of campaigns and \$20 million managed
- Developed and built client-facing and real-time analytics dashboards with Looker Studio.
 Transitioned firm from manual reporting to automated reporting in 3 months, including staff training, and saved 10 hours/week per associate
- Coordinated weekly with SBDigital's Vice Presidents to draft media proposals that translated client's political goals into actionable and clear marketing objectives and KPIs
- Led firm's social listening, media monitoring, sentiment analysis, and content analyses projects
